EXHIBITION GROUNDS

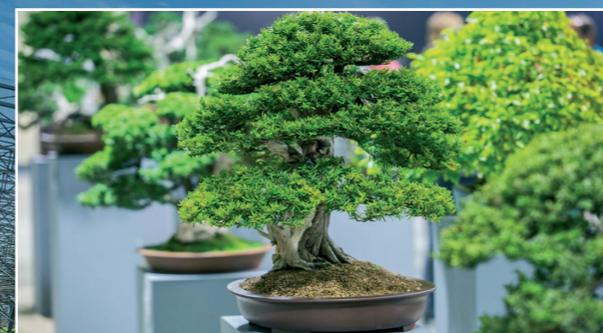

The **Kroměříž Exhibition Grounds** is visited by over 250 000 visitors each year. Exhibitions, concerts, fairs, weddings and other cultural events take place throughout the year at the exhibition area.

The exhibition grounds host the largest exhibition of horticulture in the Czech Republic each year – the exhibition Floria Spring, Floria Summer and Floria Autumn – many of which have a tradition for more than 40 years.

The modern four-hectare complex includes two exhibition halls, one hectare of roofed pavilions, six unique thematic gardens and an unique Children's and Sports World that offers dozens of attractions for children and adults.

The Kroměříž Exhibition Grounds offers both exterior and interior options, thus eliminating the impact of bad weather and allowing the whole area to pass through dry feet.

The pride of the exhibition centre is six ornamental gardens that have created a unique atmosphere for the exhibition grounds. Visitors can draw inspiration from the exhibition grounds and admire the floral areas, waterfalls and rare trees, some older than three human generations.

EBA CONVENTION 2020

Czech Republic
Kroměříž

25. – 27. 9. 2020

**THE EBA CONVENTION
CZECH REPUBLIC
IS ORGANIZED BY THE CZECH
BONSAI ASSOCIATION
IN THE BEAUTIFUL TOWN
KROMĚŘÍŽ (UNESCO
WORLD HERITAGE) WITH
PARTNERSHIP OF EXHIBITION
AND TRADING COMPANY
VÝSTAVIŠTĚ KROMĚŘÍŽ.**

The entrustment of the Czech Bonsai Association by organizing the EBA 2020 Convention is a great honour and challenge for us organizers and CBA officials. To hold this important event, we chose a modern multifunctional exhibition grounds in the beautiful historic town of Kroměříž, where the traditional autumn exhibition Floria Autumn BONSAI will be held.

The program shall consist of bonsai demonstrations performed by highly respected bonsai masters, lectures on suiseki philosophy, bonsai cultivation, pots production, discussion forums, guided tours of exhibitions, new talent competition, sales events, consulting and a rich cultural program.

The CBA was entrusted with organizing the congress for the second time. The first EBA congress in the Czech Republic took place in Jihlava 2003. Thus, in 2020, the most significant event of the European bonsai scene will return to the Czech Republic after 17 years.

Our organizational team will do everything for the successful course of the event and we believe that this will be reflected in the satisfaction of exhibitors, demonstrators and especially visitors from all over Europe and other countries of the bonsai world.

Ivan Macháček

President of the Czech Bonsai Association

KROMĚŘÍŽ CITY

Kroměříž has always been associated with the fertile Hana landscape. Whenever you come there, you will be surrounded by an unique atmosphere. You can find here treasures of world art and architecture, cultural and natural monuments and unique collections. The historical legacy is combined with a range of picturesque hotels and guest houses, and cultural, sporting and tourist activities. See it with your own eyes.

The centre of Kroměříž was declared an Urban Monuments Preservation Area in 1978. The complex formed by the Archbishop's Château, the Flower Garden and the Château Garden was declared a National Cultural Monument in 1995 and a UNESCO World Heritage Site in 1998.
